

Better management starts with the right partners.

MINERVA PRIME. Protection and personalised service.

HOW WE SUPPORT YOU

We handle the technical side. You get clear answers.

Security, access and connectivity for the villas you manage.

01 WE INFORM

What needs attention and the solution we recommend.

02 WE COORDINATE

Visits, access arrangements and the professionals involved.

03 WE DELIVER

Approved work and system performance checks.

04 WE REPORT

What was done, the outcome and anything still pending.

Everything you need to know, in a report that is quick to read.

Clear information to share with the owner. If you prefer, we can communicate directly with them, as agreed with your agency.

YOUR DAY-TO-DAY MANAGEMENT

What challenges are you facing today?

Keys constantly changing hands

How much time goes into organising handovers and access?

Coordinating alarm companies

Who schedules visits and follows up on outstanding issues?

Visits without clear updates

Do you know why the technician is coming and what was done?

Appointments that disrupt your day

Do you have to keep an entire morning or afternoon free?

Repeat visits for the same problem

Do they need to return? Is the next step clearly explained?

Let's start with one villa.

WE REVIEW

the existing systems and assess their condition.

WE PROPOSE

the support required, with priorities, scope and budget.

WE INTEGRATE

with your agency's coordination and communication.

BENEFITS

Less chasing. More issues resolved.

Fewer key handovers

Personal and temporary access permissions simplify entry for contractors and guests, wherever the system allows.

Visits at agreed times

We coordinate the day, time and access so you can organise your schedule.

Every visit, prepared

Our technicians know the system, its history and the reason for each visit.

Every job, checked

We verify the outcome and flag anything pending to reduce repeat visits for the same issue.

Clear answers for owners

A concise report explains what happened, what we did and the result. If agreed, we can update the owner directly.

Continuity between visits

Your dedicated technical contact keeps the villa's history and follows up on outstanding issues.

Let's start with one villa.

An initial review to understand the systems, identify what needs attention and explain how we can take care of it.

Let us arrange a visit. We will coordinate the rest.
